LMCH NEXT STEPS

STEP 6

Central Michigan Regional Rural Health Network Presentation
August 3, 2017
Agenda

- Overview
- Specifics on 6
- Questions
Steps for Today’s Meeting

1. Organize for Success
2. Engage Community Partners
3. Visioning
4. Gather Assessment Information
5. Interpreting Assessment Data
6. Identify Strategic Issues
7. Develop Goals & Objectives
8. Develop Strategies & Action Plans
The System of Partners that influence the Public’s Health
Life Course

Pre- & Inter-conception  Perinatal  Infant  Early Childhood  Adolescence  Adulthood
Health Outcomes

Health Behaviors
(e.g., smoking, diet, exercise)

Social Determinants
(e.g., transportation, food, housing, employment, education)

Direct & Enabling Services
(e.g., family planning, services for CYSHCN, well woman care, pediatric care, clinical linkages)

Public Health Systems
(e.g., assessment & planning, convening partners, community education, policy development & enforcement, surveillance)
Step 2: Continued

- Be clear about what you’re asking your partners to do:
  - Define a vision for MCH in your community (March Meeting)
  - Help you interpret assessment data (1-3 meetings)
  - Participate in a conversation about MCH infrastructure and capacity (1 meeting)
  - Identify themes and strategic issues (1 meeting)
  - **Identify priorities (1 meeting or online survey)**
  - Develop goals and objectives (1 meeting or review by email)
  - Develop action plans (1-5 meetings)
New Title V Vision Statement

Title V envisions a nation where all mothers, children and youth, including children with special health care needs and their families are healthy and thriving.

What in the world is a “strategic issue”?

“Strategic issues are fundamental policy choices or critical challenges that must be addressed in order for a community to achieve its vision.”

-MAPP Guide
Data to Strategic Issues: Step 2 – Identify Themes

- Pull findings that tell you about a particular health outcome.
- Use data from all three assessments.
- Draw on the life course perspective.
- The same finding may be related to multiple themes.
From Data to Strategic Issues: Step 3 – Name Strategic Issues

Remember:

Strategic issues are the most **critical** issues that, if addressed, would improve health...

They are the **barriers** that are keeping your community from reaching your vision.
ACTIVITY
IDENTIFY YOUR TOP 4 STRATEGIC ISSUES
HEALTH OUTCOMES
The mortality rate for adolescents is high
The suicide rate for people under 25 is high

HEALTH BEHAVIORS
The percent of adolescents who smoke is high

SOCIAL DETERMINANTS OF HEALTH
Adolescents are worried about the transition to adulthood
Adolescents are feeling alone and disconnected
Adolescents reported stigma around mental health treatment
Adolescents like the parks and beaches in their community

DIRECT & ENABLING SERVICES
We have a small non-profit focusing on youth mental health
Adolescents like the job shadowing program offered by a high school

PUBLIC HEALTH SYSTEMS
We do not regularly use mortality data
We have a dashboard that multiple agencies check
We do not have mental health services for adolescents
ACTIVITY - GROUP LIKE ITEMS
Prioritization Strategies

- Start here!
- Taking on a challenge!
- Could be a quick win, but...
- Nope
Questions?
THANK YOU!
