- State Initiatives
- Strategic Planning
- Priority Area Programs Development
The Michigan Department of Health and Human Services (MDHHS) is inviting public comment on the Title V Maternal and Child Health (MCH) Services Block Grant application.

Title V of the Social Security Act of 1935 provides funding to states to improve the health of mothers, infants and children, including children with special health care needs.

Per federal requirements, a five-year needs assessment was completed in 2015 and a summary is included in the application.
MDHHS Title V MCH Services
Block Grant Application

Seven priorities for 2016-2020 Aimed at Improving the Health of the MCH population

1. Reducing barriers, improving access and increasing availability of health services for all populations.
2. Supporting coordination and linkage across the perinatal to pediatric continuum of care.
4. Increasing family and provider support and education for children with special health care needs.
5. Increasing access to and utilization of evidence-based oral health practices and services.
6. Fostering safer homes, schools and environments with a focus on prevention.
7. Promoting social and emotional well-being through the provision of behavioral health services.
The priorities are linked to state and national performance measures across five federally-identified population domains: women/maternal health; perinatal/infant health; child health; adolescent health; and children with special health care needs.

Michigan’s Title V application is for services from Oct. 1, 2018 to Sept. 30, 2019, and also includes a report on activities and services provided in FY 2017.

The Title V draft application and annual report are available online. MDHHS welcomes comments on the application, which must be received by June 15 by 5 p.m., and can be submitted to daviss11@michigan.gov.

Additional information about the Title V Maternal and Child Health Services Block Grant Program.
10 cents a meal for school kids and farms is a state pilot program that provides schools with up to 10 cents per meal in match funding to purchase and serve Michigan grown fruits, vegetables, and legumes.

Following the successful 2016-2017 pilot school year, the state of Michigan grew the program from $250,000 to $375,000 and opened up the opportunity to schools in an additional region. Schools in Michigan Prosperity Regions 2, 4 and 9 are now receiving funding.

Two state departments are involved: The Department of Education is serving as lead and the Department of Agriculture and Rural Development.

"With this bill, Michigan joins just a handful of states that have taken this great step forward, demonstrating its role as a national leader in this work." - Helen Dombalis, Programs Director, National Farm to School Network

Take Action

✓ Contact state legislators to expand the program into Prosperity Regions 3 and 5. Sample language for use when reaching out to legislators is included in presentation overview.

Legislators’ Contact Information

Michigan Senators
Michigan Representatives

✓ Identify champions and develop partnerships to provide matching funds and facilitate schools in Osceola County to apply for funding. Application period estimated to open in August.

✓ Attend the 10 Cents a Meal - Tips for Being a Strong Applicant & Grantee Webinar on June 13th from 12:30 – 2:00 p.m.
Central Michigan Regional Rural Health Network
Programmatic Goals

- Expand the utilization of community health workers (CHWs) and continue developing a plan to implement a sustainable, region wide care coordination hub
- Facilitate the development of trauma informed systems and resilient communities
- Collaborate to develop and promote additional evidence-based or promising practices and programs that address population health needs identified as being of priority
- Address regional health professional workforce education, training, recruitment, and retention issues
Priority Area Programs Development

Priority Areas

- Access to quality health care
- Behavioral health
  - Mental health
  - Substance use disorders
  - Abuse and neglect
- Nutrition
- Physical activity and access to recreation
- Maternal and child health
- Family health
- Reproductive and sexual health
- Older adult/geriatric health
- Access to transportation
