Central Michigan Regional Rural Health Network Development Planning

February 4, 2016
Central Michigan Regional Rural Health Network Development Planning

July 9, 2015
Acknowledgement

This presentation was prepared by the Central Michigan District Health Department (CMDHD) for the Central Michigan Regional Rural (CMRR) Health Network Development Planning project.

The project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number P10RH28456 for Rural Health Network Development Planning. This information and conclusions are those of CMDHD and should not be construed as the official position or policy of, nor should any endorsement be inferred by HRSA, HHS, or the U.S. Government.
Today’s Agenda

- Introductions
- Health Network Development Planning Project Updates
- Health Network Development Planning Project Requirements
- Next Steps in Health Network Development Planning
- Developing Priority Areas
- Central Michigan Regional Rural Health Network Member Spotlight - Michigan State University (MSU) College of Human Medicine Rural Community Health Program
- Comments and Questions
Introductions
Central Michigan Regional Rural Health Network Members

Health Care Providers
- Central Michigan District Health Department (CMDHD)
- Community Mental Health for Central Michigan
- Isabella Citizens for Health, Inc.
- McLaren Central Michigan
- MidMichigan Community Health Services
- MidMichigan Medical Centers – Clare, Gladwin, and Gratiot
- Munson Healthcare Grayling Hospital
- My Community Dental Centers (MCDC)
- Spectrum Health Reed City Hospital
- St. Mary’s of Michigan Standish Hospital
- Sterling Area Health Center
Central Michigan Regional Rural Health Network Members

**Academic Institutions Offering Health Professions Programs**

- Central Michigan University (CMU) College of Medicine (CMED)
- Central Michigan University (CMU) The Herbert H. and Grace A. Dow College of Health Professions (CHP)
- Ferris State University College of Health Professions (CHP)
- Kirtland Community College
- Michigan State University (MSU) College of Human Medicine
- Mid Michigan Community College (MMCC) Health Sciences Program
Central Michigan Regional Rural Health Network Members

Health and Human Services Organizations

- 211 Northeast Michigan
- Central Michigan Pregnancy Services
- Michigan Health Improvement Alliance, Inc. (MiHIA)
- Michigan Primary Care Association (MPCA)
- Michigan State University (MSU) Extension
- Mid Central Area Health Education Center (AHEC)
- Northern Lower Regional Area Health Education Center (AHEC)
- Region VII Area Agency On Aging (Region VII AAA)
- Ten16 Recovery Network
Additional Central Michigan Regional Rural Health Network Participants

Central Michigan County Health Improvement Workgroups
- Arenac County Health Advisory Committee
- Clare-Gladwin Health Improvement Planning Workgroup
- Isabella Health Improvement Planning Workgroup
- Roscommon County Health Improvement Planning Workgroup

Health Care Providers
- Central Michigan University (CMU) Health Services
- MidMichigan Collaborative Care Organization, LLC

Government Organizations
- Isabella County Board of Commissioners
- Michigan Department of Health and Human Services
- Michigan State Police
Additional Central Michigan Regional Rural Health Network Participants

Health and Human Services Organizations

- City of Mt. Pleasant Parks and Recreation Department Farmers' Market
- EightCAP, Inc. 0-5 Head Start
- Great Start Collaborative - Gratiot-Isabella Counties
- Greater Lansing Food Bank
- Mecosta Osceola Transit Authority
- Michigan Works! Region 7B and Northern Transformation
- Mid Michigan Community Action Agency (MMCAA)
- Mid-Michigan Transportation Connection
- Mid-State Health Network (MSHN)
- Roscommon County Transportation Authority (RCTA)
Health Network Development Planning Project Updates
Health Network Development Planning Project Updates

Grant Application Submitted on January 8, 2016

Areas of Focus

- Collaborate with not-for-profit hospitals/medical centers and county health improvement planning workgroups to develop plans for addressing community needs identified by community health needs assessments.

- Create a plan to identify rural patient concerns and enhance systems of care to better meet those concerns.

- Develop a plan to utilize health information technology to facilitate care coordination and increase use of telehealth for treatment and prevention.
Health Network Development Planning Project Updates

Grant Application Abstract Excerpt

The CMRR Health Network Members are committed to working collectively to provide the highest level of access to care possible by increasing the use of health information technology and exploring alternative health care delivery models and to provide a high level of quality health care across the continuum of care from acute and long term care to prevention and wellness support services.
Health Network Development Planning Project Updates

**Rural Health Network Member Roles and Responsibilities**

- Being well informed about rural health network planning project activities, including reviewing relevant materials provided by the Lead Rural Health Network Member.

- Providing constructive verbal and written input regarding recruitment of additional Central Michigan Regional Rural Health Network Members and perceived community and health care needs and for programmatic/operational plans via the methods and tools provided by the Lead Rural Health Network Member.

- Participating in decision making processes to identify the Central Michigan Regional Rural Health Network Members goals, objectives, and measures.

- Providing input into development of Central Michigan Regional Rural Health Network Members governing and operating policies and procedures and adhering to any such policies and procedures.

- Informing the Lead Rural Health Network Member regarding any concerns or issues and/or conflicts of interest.

- Positively representing and promoting the Central Michigan Regional Rural Health Network and its programs to peers, stakeholders, individuals, the public, and other organizations.
Health Network Development Planning Project Updates

Rural Health Innovations – Technical Assistance Provider

Communications Recommendations

- Arrive on time and end on time.
- Engage in deep listening; avoid technology temptations.
- Pose questions and contribute input.
- Take on at least one communication opportunity between meetings.
- Leave politics at the door and bring respect into the room.

************

"The basic building block of good communications is the feeling that every human being is unique and of value."

************

Discussion: Are the Network Member representatives and their organizations’ members amenable to change?
Health Network
Development Planning
Project Requirements
Health Network Development Planning Project Requirements

**Mission**

Work collectively to improve the health of and promote wellness among the community members in the central Michigan region.

**Required Deliverables**

- Strategic Plan
- Programmatic Report
- Self Assessment Report
- Performance Improvement and Management System (PIMS) Measures Report
Health Network Development Planning Project
Requirements
Meeting the Objectives!

Completed

- Conduct a community health needs assessment at both regional and county levels

Ongoing

- Identify and recruit additional potential collaborating network partners
- Institute mechanisms to obtain the support of additional stakeholders, including community members at the regional, county, and municipal levels
- Identify and address health professional workforce recruitment and retention issues
Health Network Development Planning Project Requirements

Meeting the Objectives!

In Progress

- Document the Health Network’s primary care and wellness priorities, objectives, and strategies, as well as near, intermediate, and long term outcome measures

- Identify “champions” and obtain leadership commitment to achieving the primary care and wellness and prevention objectives, as well as developing and maintaining the central Michigan rural health network infrastructure

- Document any and all memoranda of understanding, health network bylaws, and/or operating agreements developed during the planning process
Health Network Development Planning Project
Requirements

Meeting the Objectives!

In Progress (continued)

- Develop a system to share information regarding opportunities to strengthen and expand current programmatic health care efforts and implement new programs

- Document any and all memoranda of understanding, health network bylaws, and/or operating agreements developed during the planning process

- Identify methods and mechanisms to sustain the health network as a viable, functioning entity
Health Network Development Planning Project Requirements

Meeting the Objectives!

To be Accomplished

- Conduct a needs and resources assessment related to health care system providers and related facilitating stakeholders, including:
  - Identifying the most critical needs of Network Members to ensure their continuing viability
  - Identifying available resources
  - Documenting the types and levels of resources required to fill gaps in the health care system
Meeting the Objectives!

To be Accomplished (continued)

- Identify the resources that will be necessary to strengthen current programs and implement new programs to achieve the primary care and wellness and prevention objectives, as well as to address the needs of the facilitating stakeholders.

- Identify the degree to which the Network Members are ready to integrate their functions, share clinical and/or administrative resources, and collaborate to collectively address the identified objectives.
Health Network Development Planning Project Requirements

Meeting the Objectives!

- Additional Objective: Collect additional information required for the Strategic Plan, Programmatic Report, Self-Assessment Report, and Performance Improvement and Management System (PIMS) Measures Report for reporting to HRSA.

- Strategy from 2015 grant application: Many low/no income patients have difficulty communicating with their medical providers and at times, medical practitioners are unaware of some of the cultural issues associated with treating these patients. To address that issue, it is likely that the proposed Network Member Mid Central Area Health Education Center will collaborate with the Network Member Academic Institutions to develop cultural sensitivity courseware for both current and future practitioners, as well as courseware for those who may willing to volunteer to serve as patient advocates.
Next Steps in Health Network Development Planning
Next Steps in Health Network Development Planning

- Develop Priority Areas – today!
- Keep posting events on the Community Calendar at www.together-we-can.org/calendar
- Share information by contributing to the Resources Library
- Network Member Directory to be posted online
- Provide links to position opening webpages
Next Steps in Health Network Development Planning

- Have one member of each organization participate in the February survey to:
  - Determine which priority areas of each Central Michigan Region Rural Network
  - Identify target populations
  - Begin collecting strategies/objectives in each priority area
  - Begin collecting Network Members’ critical needs
  - Review and expand upon workforce recruitment and retention issues and strategies
  - Obtain suggestions for potential Executive Committee Members
