Central Michigan Regional Rural Health Network Development Planning Project Overview
Central Michigan Regional Rural Health Network Development Planning Project Overview

Mission: Work collectively to improve the health of and promote wellness among the community members in the central Michigan region.

- Determine what needs to be done
  - Assemble health indicator information
  - Complete a survey to help identify and prioritize needs/issues to be addressed
  - Determine priority areas and objectives (with measures)

- Determine who is going to do it, and what is it going to take to do it.
  - Identify Health Network Members’ current resources/programs in relation to the objectives
Central Michigan Regional Rural Health Network Development Planning Project Overview

- Determine resources needed to fill gaps (by expanding current programs, implementing new programs, and including additional facilitating stakeholders) to achieve objectives
- Document objectives and strategies in a strategic implementation plan

- Additional Requirements
  - Foster collaborative/teaming agreements
  - Develop the Health Network infrastructure so that it continues on as “a viable, functioning entity” (by focusing upon governance, public relations/communications, and sustainability)
Health Network Development Planning Project Updates

Technical Assistance: First of three required telephone conferences with Rural Health Innovations (RHI), the Technical Assistance Provider was held on August 14th. Attendees - Steve Hall and Veronica Romanov of CMDHD and Kap Wilkes of RHI.

- Two deliverables are required: Self-assessment and Strategic Plan. Both due 90 days after the end of the contract. RHI will conduct a self-assessment webinar in October
- Will not conduct peer to peer meetings
- RHI followed up with some sample documents relating to governance

Governance Committee: First meeting will be on September 18th. Will to initiate memoranda of understanding, health network bylaws, and/or operating agreements development process.

Central Michigan Regional Rural Health Network Website: Will be implementing a password protected area for project materials

CivicHealth: Software application provider would like to present to the CMRR Health Network. See www.civichealth.com.
CivicHealth’s Software Platform

- **Ensures** a continuum of care by connecting care providers
- **Supports** patient compliance through communication and documentation
- **Tracks** care team efficiencies based on patient compliance
- **Documents** care for non-tangible service not tracked for billing in EHRs
What We Do

CivicHealth’s comprehensive software solutions enable connectivity and collaboration between multiple providers, healthcare networks and human services organizations.
