Additional Upcoming Opportunities

**Telehealth Network Grant Program (TNGP)**

- FOA estimated to be released in January 2016
- Point of contact is Carlos Mena
- The primary objective of the Telehealth Network Grant Program (TNGP) is to help communities build the human, technical, and financial capacity to develop sustainable telehealth programs and networks.
- Competitive grant program that funds projects that demonstrate the use of telehealth networks to improve healthcare services for medically underserved populations in urban, rural, and frontier communities.
- The networks can be used to:
  - Expand access to, coordinate, and improve the quality of health care services;
  - Improve and expand the training of health care providers; and/or
  - Expand and improve the quality of health information available to health care providers, patients, and their families.
